PROFESSIONAL TOOLS FOR ARTISTS

BIOGRAPY

I am a painter: I started using classic media (oil, acrylic, etc.) and ceramics until I reached the digital painting some years ago. I use a laptop, a graphic tablet and software (Rebelle) that offers me tools similar to the physical ones: canvas, brushes, colors. So the computer screen becomes my blank canvas to paint on. The works are then printed in high definition by a company specialized in fine art. Every painting of mine can be sold as a digital asset (NFT).
